No agreement, written or otherwise, purporting to modify, limit or otherwise vary the terms of this Subpoena, shall be construed in any way to narrow, qualify, eliminate or otherwise diminish Your aforementioned preservation obligations.

Nor shall You act, in reliance upon any such agreement or otherwise, in any manner inconsistent with Your preservation obligations under law. No agreement purporting to modify, limit or otherwise vary Your preservation obligations under law shall be construed as in any way narrowing, qualifying, eliminating or otherwise diminishing such aforementioned preservation obligations, nor shall You act in reliance upon any such agreement, unless a Special Deputy to the First Deputy Attorney General confirms or acknowledges such agreement in writing, or makes such agreement a matter of record in open court.

This includes, without limitation, Documents or information possessed or held by You or any of Your employees, staff, agents, representatives, consultants, attorneys, or Persons from whom You could request Documents or information. The Office of the Attorney General reserves the right to approve, disapprove, modify or supplement any proposed list of custodians, search terms, and/or review methodology. The selection or use of custodians, search term filters, and/or technology-assisted review in no way relieves You of Your obligation to fully respond to these requests for Documents or information.

All Documents responsive to this Subpoena, regardless of whether produced or withheld on ground of privilege or other legal doctrine, and regardless of whether production is in electronic or paper format, shall be numbered in the lower right corner of each page of such Document, without disrupting or altering the form, sequence, organization or other order or layout in which such Documents were maintained before production. Such number shall comprise a prefix containing the producing Person's name or an abbreviation thereof, followed by a unique, sequential, identifying document control number.
10. Privilege Placeholders. For each Document withheld from production on ground of privilege or other legal doctrine, regardless of whether a production is electronic or in hard copy, You shall insert one or more placeholder page(s) in the production bearing the same document control number(s) borne by the Document withheld, in the sequential place(s) originally occupied by the Document before it was removed from the production.

Electronic Document Production Specifications

Unless otherwise specified and agreed to by the Office of Attorney General, all responsive documents must be produced in LexisNexis® Concordance® format in accordance with the following instructions. Any questions regarding electronic document production should be directed to the Special Deputy to the First Deputy Attorney General whose telephone number appears on the subpoena.

1. **Concordance Production Components.** A Concordance production consists of the following component files, which must be produced in accordance with the specifications set forth below in Section 7.
 - A. ***Metadata Load File.*** A delimited text file that lists in columnar format the required metadata for each produced document.
 - B. ***Extracted or OCR Text Files.*** Document-level extracted text for each produced document or document-level optical character recognition (“OCR”) text where extracted text is not available.
 - C. ***Single-Page Image Files.*** Individual petrified page images of the produced documents in tagged image format (“TIF”), with page-level Bates number endorsements.
 - D. ***Opticon Load File.*** A delimited text file that lists the single-page TIF files for each produced document and defines (i) the relative location of the TIF files on the production media and (ii) each document break.
 - E. ***Native Files.*** Native format versions of non-printable or non-print friendly produced documents.
2. **Production Folder Structure.** The production must be organized according to the following standard folder structure:
 - data\ (contains production load files)
 - images\ (contains single-page TIF files, with subfolder organization)
 \0001, \0002, \0003...
 - native_files\ (contains native files, with subfolder organization)
 \0001, \0002, \0003...
 - text\ (contains text files, with subfolder organization)
 \0001, \0002, \0003...
3. **De-Duplication.** You must perform global de-duplication of stand-alone documents and email families against any prior productions pursuant to this or previously related subpoenas.
4. **Paper or Scanned Documents.** Documents that exist only in paper format must be scanned to single-page TIF files and OCR’d. The resulting electronic files should

be pursued in Concordance format pursuant to these instructions. You must contact the Special Deputy to the First Deputy Attorney General whose telephone number appears on the subpoena to discuss (i) any documents that cannot be scanned, and (ii) how information for scanned documents should be represented in the metadata load file.

5. Structured Data. Before producing structured data, including but not limited to relational databases, transactional data, and xml pages, you must first speak to the Special Deputy to the First Deputy Attorney General whose telephone number appears on the subpoena. Structured data is data that has a defined length and format and includes, but is not limited to, relational databases, graphical databases, JSON files, or xml/html pages.

A. Relational Databases

1. Database tables should be provided in CSV or other delimited machine-readable, non-proprietary format, with each table in a separate data file. The preferred delimiter is a vertical bar “|”. If after speaking with the Special Deputy to the First Deputy Attorney General and it is determined that the data cannot be exported from a proprietary database, then the data can be produced in the proprietary format so long as the Office of the Attorney General is given sufficient access to that data.
2. Each database must have an accompanying Data Dictionary.
3. Dates and numbers must be clearly and consistently formatted and, where relevant, units of measure should be explained in the Data Dictionary.
4. Records must contain clear, unique identifiers, and the Data Dictionary must include explanations of how the files and records relate to one another.
5. Each data file must also have an accompanying summary file that provides total row counts for the entire dataset and total row counts.

B. Compression

1. If Documents are provided in a compressed archive, only standard lossless compression methods (e.g., gzip, bzip2, and ZIP) shall be used. Media files should be provided in their original file format, with metadata preserved and no additional lossy encoding applied.

6. Media and Encryption. All documents must be produced on CD, DVD, or hard-drive media. After consultation with the Special Deputy to the First Deputy Attorney General, Documents may also be produced over a secure file transfer protocol (FTP) or a pre-approved cloud-based platform (e.g., Amazon Web Services S3 bucket). All production media must be protected with a strong, randomly generated password containing at least 16 alphanumeric characters and encrypted using Advanced Encryption Standard with 256-bit key length (AES-256). Passwords for electronic documents, files, compressed archives and encrypted media must be provided separately from the media.

7. Production File Requirements.
 - A. ***Metadata Load File***
 - Required file format:
 - ASCII or UTF-8
 - Windows formatted CR + LF end of line characters, including full CR + LF on last record in file.
 - .dat file extension
 - Field delimiter: (ASCII decimal character 20)
 - Text Qualifier: þ (ASCII decimal character 254). Date and pure numeric value fields do not require qualifiers.

 - Fields with no values must be represented by empty columns maintaining delimiters and qualifiers.
 - ***Note:*** All documents must have page-level Bates numbering (except documents produced only in native format, which must be assigned a document-level Bates number). The metadata load file must list the beginning and ending Bates numbers (BEGDOC and ENDDOC) for each document. For document families, including but not limited to emails and attachments, compound documents, and uncompressed file containers, the metadata load file must also list the Bates range of the entire document family (ATTACHRANGE), beginning with the first Bates number (BEGDOC) of the “parent” document and ending with the last Bates number (ENDDOC) assigned to the last “child” in the document family.
 - Date and Time metadata must be provided in separate columns.
 - Accepted date formats:
 - mm/dd/yyyy

- hh:mm:ss:mmm

B. ***Extracted or OCR Text Files***

- You must produce individual document-level text files containing the full extracted text for each produced document.
- When extracted text is not available (for instance, for image-only documents) you must provide individual document-level text files containing the document's full OCR text.
- The filename for each text file must match the document's beginning Bates number (BEGDOC) listed in the metadata load file.
- Text files must be divided into subfolders containing no more than 500 to 1000 files.

C. ***Single-Page Image Files (Petrified Page Images)***

- Where possible, all produced documents must be converted into single-page tagged image format ("TIF") files. See Section 7.E below for instructions on producing native versions of documents you are unable to convert.

 - BOX BREAK – defines the first page of a box. The only possible values for this field are “Y” or blank.
 - PAGE COUNT – this value is optional and may be left blank.
- **Example:**
 ABC00001,,IMAGES\0001\ABC00001.tif,Y,,,2
 ABC00002,,IMAGES\0001\ABC00002.tif,,,,
 ABC00003,,IMAGES\0002\ABC00003.tif,Y,,,1
 ABC00004,,IMAGES\0002\ABC00004.tif,Y,,,1

E. ***Native Files***

- Non-printable or non-print friendly documents (including but not limited to spreadsheets, audio files, video files and documents for which color has significance to document fidelity) must be produced in their native format.
- The filename of each native file must match the document’s beginning Bates number (BEGDOC) in the metadata load file and retain the original file extension.
- For documents produced only in native format, you must assign a single document-level Bates number and provide an image file placeholder that states “Document produced only in native format.”
- The relative paths to all native files on the production media must be listed in the NATIVEFILE field of the metadata load file.
- Native files that are password-protected must be decrypted prior to conversion and produced in decrypted form. In cases where this cannot be achieved the document’s password must be listed in the metadata load file. The password should be placed in the COMMENTS field with the format Password: <PASSWORD>.
- You may be required to supply a software license for proprietary documents produced only in native format.

He said look up Lisa Shields. You could be sisters. Except you're the better looking sister.

Stephanie,

It was a great trip – particularly interesting at the GM plant this am.

Thanks for all of your help and, if possible, please relay my thanks to the Governor for letting me join again.

Hope to see you one of these days after work

All my best,
Linds

Lindsey and I had brunch at the 4 Seasons in Georgetown on Sunday, December 3, 2017-- we met at 12:30pm and Lindsey had [REDACTED] with her.

During this brunch, Lindsey told me that she had recently had an encounter on a private plane with Governor Cuomo-- flying in New York State-- where his behavior towards her had been inappropriate in a sexual way. She shared that he came onto her all the time at work, but that what he did on the plane was especially gross.

You are destroying my reputation!
This is an outright ploy to embarrass me, you and the other people all trying to bring me down , Now ! Why now? All of a sudden you with the rest seemingly decided that this was the best time.. Why not then? Why ? If I said anything to you at that time why not stand up for yourself at that very instant? You and the others found a weak link to try to make me look guilty and this doesn't give you any right

I know this will bounce back to yourself I have done nothing wrong
